**PETITION UNDER 37 C.F.R. 1.181 TO REVIEW DETERMINATION OF
PATENT TERM EXTENSION PURSUANT TO 37 C.F.R. §1.701**

Mail Stop Patent Extension
Commissioner for Patents
P. O. Box 1450
Alexandria VA 22313-1450

Applicants respectfully petition the Commissioner for Patents to review and reconsider the Patent Term Extension determined for the present application, as indicated on the communication entitled Determination of Patent Term Extension Under 35 U.S.C.A 154(b) and mailed July 21, 2004. Specifically, Applicants request that any patent to be issued from the above-identified application include an indication of a 981 days term extension. The basis for the requested Patent Term Extension is provided under §1.701(a)(3) and §1.701(c)(3), which cover Examination Delays caused by a review by the Board of Patent Appeals and Interferences and wherein "a patent was issued pursuant to a decision reversing an adverse determination of patentability."

STATEMENT OF FACTS

The present application was filed on March 24, 1999 as a Continuing Prosecution Application (CPA) of a patent application originally filed on July 4, 1997. The claims of the CPA application were rejected in a non-Final Office Action and then, again in a Final Office Action. After receiving an Advisory Action from the U.S.P.T.O., Applicants filed a Notice of Appeal on May 12, 2000. On January 17, 2003, the Board issued a Decision on the Appeal in the form of a Remand to the Examiner (see attached copy). The Examiner then issued a First Office Action on October 6, 2003, in which all claims were rejected and to which Applicants filed a Response on December 1, 2003. The next communication issued by the U.S.P.T.O. was a Notice of Allowance on July 21, 2004. This Notice was accompanied by the above-mentioned Determination of Patent Term Extension.

A summary of the relevant activities and dates are provided below:

Original Filing Date:	June 4, 1997
CPA Filing Date:	March 24, 1999
Notice of Appeal:	May 12, 2000
BAPI Decision:	January 17, 2003
Notice of Allowance:	July 21, 2004

Copies of USPTO Communications reflecting the above activities are provided in the attached Appendix, along with the Determination of Patent Term Extension and a P.A.I.R. printout of the File History.

BASIS FOR TERM EXTENSION

For purposes of Patent Term Adjustment (or extension), Section §1.701 applies because the present application was filed on or after June 8, 1995, but before May 29, 2000. Applicants request a Patent Term Extension of a total of 981 days, on the basis of §1.701(a)(3), as determined by §1.701(c)(3). Specifically, the Applicants submit that the Patent to be issued on this application is entitled to an extension of the patent term because issuance was delayed due to an appellate review by the Board of Patent Appeals and Interferences, in which a “decision reversing the adverse determination of patentability” was rendered. Former 35 U.S.C 154(b)(2). Applicants further submit that the patent will not be “subject to a terminal disclaimer due to the issuance of another patent claiming subject matter that is not patentably distinct from that under appellate review,” as required by §1.701(a)(3). The Term Extension is determined as the number of days in the period beginning on the filing date of the Notice of Appeal (May 12, 2000) and ending on the issuance date of the Decision from the BAPI (January 17, 2003). *See* 37 CFR §1.701(c)(3). For the present application, this period accounts for a total of 981 days.

Applicants further direct attention to recent revisions of the Patent Term Extension and Patent Term Adjustment provisions, effective May 18, 2004. The present rule provides that certain remands by the BAPI shall be considered “a decision in the review reversing an adverse determination of patentability.” 37 C.F.R. §1.701(a)(3). Specifically, if an Application is remanded by a panel of the BAPI and the Remand is the last action by the BAPI panel prior to the mailing of the Notice of Allowance under 35 U.S.C. 151 in the Application, the Remand shall be considered a “decision reversing an adverse determination of patentability” for patent term extension purposes. *Id.* Such consideration is conditioned on the absence of a Request for Continued Examination (RCE) that was “first preceded by the mailing, after such remand, of at

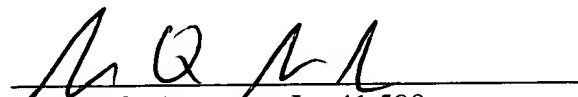

least one of an action under 35 U.S.C. §132 or a Notice of Allowance under 35 U.S.C. §151”. *Id.* In respect to the present application, the Decision for Remand on January 17, 2003 was, indeed, the “last action by the BAPI panel prior to the mailing of the Notice of Allowance...” Moreover, the Applicants have not filed (and will not file) an RCE at any time after the BAPI Decision. Accordingly, the BAPI’s Decision for Remand is a “decision reversing an adverse determination of patentability”, for purposes of 37 C.F.R. §1.701(a)(3).

CONCLUSION AND PETITION

Applicants submit that the present application is entitled to a patent term extension of 981 days. Accordingly, Applicants petition the Commissioner under 37 C.F.R. §1.181 to review the present Determination of Patent Term Extension and determine a Patent Term Extension of 981 days for indication on the soon-to-be issued Patent.

Applicants believe that a fee as set forth in 37 C.F.R. §1.18(e) is required of this Petition. The Commissioner is hereby authorized to charge the amount of \$200.00 to cover the fee and any additional fees or credit any overpayments related to this Petition to Deposit Account No. **02-0429** (154-09245-CPA), maintained by Baker Hughes Incorporated.

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

REMAND TO THE EXAMINER

This application is hereby remanded to the examiner for appropriate action consistent with our comments below.

Our study of the file record for this application reveals confusion with respect to the claims which are pending and on appeal. For example, on each of pages 1 and 2 of the brief (paper no. 24), the listing of finally rejected claims which are on appeal does not include claim 23. However, claim 23 is presented in the appendix of the brief and is included in the

examiner's statement of rejection as presented on page 2 of the final office action (paper no. 20) and as presented on page 3 of the answer (paper no. 25). Additionally, on page 2 of the brief, the appellants state "[a]lthough 'claim 27' was appealed, Appellant submits that there is no claim 27, but that original claim 27 was renumbered as claim 26." This statement clearly reflects confusion as to the status and numbering of claim "27"/claim "26." Additional confusion exists with respect to claims 16 and 23 in that these claims as presented in the brief appendix correspond to original claims 16 and 23 which, according to the application file record, were renumbered¹ as claims 15 and 22 respectively and then canceled.

Upon return of this application to the jurisdiction of the Examining Corps., the examiner must communicate to the appellants the status, content and numbering of all claims now pending in the application file. Moreover, the appellants must respond to this communication in such a way as to ultimately clarify in the minds of both the examiner and the appellants an understanding

¹As originally filed, this application presented claims 1-13 and 15-27 (i.e., the originally filed application contained no claim "14"). As a result, claims 15-27 were respectively renumbered as claims 14-26 in accordance with 37 CFR § 1.126. This circumstance appears to have generated the claim confusion discussed above.

and agreement as to this claim status, content and numbering.

In addition to the foregoing, we observe that the appellants' reply brief (paper no. 26) presents arguments to which the examiner has not responded on the record of this appeal.² For example, the reply brief includes argument regarding the polymer concentrations disclosed in the applied prior art (i.e., U.K. Patent Application, GB, 2084586) and presents "EXHIBIT I" for the calculations by which appellants determined these prior art concentrations. The record before us is completely silent as to whether the examiner has considered this exhibit and, if so, whether the examiner agrees with the concentration calculations set forth therein.

Therefore, upon return of this application to the jurisdiction of the Examining Corps., the examiner must respond, ("e.g., via a supplemental examiner's answer") to the arguments as well as the exhibit calculations presented in the reply brief so as to thereby clarify whether the examiner agrees with any such arguments and calculations, and if not, why not.

²The examiner's only comment (see paper no. 27) regarding this reply brief is that it "has been considered and noted."
